

1) Transportation / Roadway Design Engineer | Raleigh, NC

AMT's southeast team is growing! We are a Civil Engineering firm that offers challenging projects, supportive management, and opportunities to develop your career as we continue to expand in a robust market.

The Company: AMT, an Engineering News-Record "Top 225 Firm," has been serving public and private clients in the eastern U.S. since 1955. Over 500 strong, AMT maintains the culture of a smaller firm while providing the technical expertise and collaboration of a larger company. We believe in partnering with our clients to deliver great projects and improve our communities.

The Position: We're looking for Roadway Design Engineers at several levels - from recent college graduate to Professional Engineer with 10+ years of experience.

Requirements:

- BS in Civil Engineering
- Zero to 10+ years of roadway design experience
- Excellent written and verbal communication skills
- NCDOT experience is a plus
- Microstation and Geopak experience a plus
- In addition to the basic requirements above, a can-do attitude, a willingness to learn, and a focus on client service are a valued part of the job.

Responsibilities: The ideal candidate will perform a variety of transportation engineering tasks including the design of horizontal and vertical road alignments, preliminary and final construction plans, cross sections, and preparation of construction estimates.

The Location: Raleigh, NC. For years, Raleigh has won awards and accolades as great place to live and work. With a low cost of living, high quality of life, and growing economy and transportation programs, this is the perfect time to join the AMT Team in North Carolina.

Why Should You Apply?

- The opportunity to work on interesting and challenging projects.
- Supportive management that values and empowers our people.
- Unrivaled opportunities to develop your career and grow as AMT grows.

2) Transportation/Roadway Design Project Manager | Raleigh or Charlotte, NC

AMT's southeast team is growing! We are a Civil Engineering firm that offers challenging projects, a truly supportive environment, and opportunities to develop your career as we continue to expand in a robust market.

The Company: AMT, an Engineering News-Record "Top 225 Firm," has been serving public and private clients in the eastern U.S. since 1955. Over 500 strong, AMT maintains the culture of a smaller firm while providing the technical expertise and collaboration of a larger company. We believe in partnering with our clients to deliver great projects and improve our communities.

The Position: We're looking for a Design Project Manager to lead transportation projects in our Raleigh, NC office. For the right individual, the potential also exists to work from our office in Charlotte, NC.

Requirements:

- BS in Civil Engineering and Registered Professional Engineer
- 8+ years of transportation design experience in roadway design
- Ability to manage all aspects of highway design projects
- Excellent written and verbal communication skills
- Experience using MicroStation and Geopak
- Design experience in North or South Carolina is a plus
- In addition to the basic requirements above, you should be technically sound, enjoy mentoring younger staff, and have a passion for outstanding client service.

Responsibilities: In this role, you will lead and develop a design team, manage all aspects of transportation projects, and represent AMT with our clients.

The Location: Raleigh, NC. For years, Raleigh has won awards and accolades as great place to live and work. With a low cost of living, high quality of life, and growing economy and transportation programs, this is the perfect time to join the AMT Team in North Carolina.

Why Should You Apply?

- The opportunity to work on interesting and challenging projects.
- Supportive leadership that values and empowers our people.
- Unrivaled opportunities to develop your career and to **lead** AMT's growth in the Carolinas and beyond.

3) Hydraulics / Water Resources Manager | Raleigh, NC

AMT's southeast team is growing! We are a Civil Engineering firm that offers challenging projects, a truly supportive environment, and opportunities to develop your career as we continue to expand in a robust market.

The Company: AMT, an Engineering News-Record "Top 225 Firm," has been serving public and private clients in the eastern U.S. since 1955. Over 500 strong, AMT maintains the culture of a smaller firm while providing the technical expertise and collaboration of a larger company. We believe in partnering with our clients to deliver great projects and improve our communities.

The Position: We're looking for a manager of our North Carolina Hydraulics / Water Resources group in the Raleigh, NC office.

Requirements:

- BS in Civil Engineering and Registered Professional Engineer
- 10+ years of hydraulic design experience on transportation projects
- Knowledgeable in erosion and sediment control, stormwater management regulations and permitting processes
- Experience using MicroStation, Geopak Drainage, and HEC-RAS
- Excellent written and verbal communication skills
- Experience on NCDOT projects is a plus
- In addition to the basic requirements above, you should be technically sound, enjoy mentoring younger staff, and have a passion for outstanding client service.

Responsibilities: In this role, you will lead and grow a Hydraulics design team with a focus on transportation projects in North Carolina. You will also manage all drainage-related aspects of projects and represent AMT with our clients.

The Location: Raleigh, NC. For years, Raleigh has won awards and accolades as great place to live and work. With a low cost of living, high quality of life, and growing economy and transportation programs, this is the perfect time to join the AMT Team in North Carolina.

Why Should You Apply?

- The opportunity to work on interesting and challenging projects.
- Supportive leadership that values and empowers our people.
